Email has become one of the most widely used methods of communication, whether for personal or business communications. In most organisations, large or small, email is the preferred form of communicating information amongst employees. As email grows in popularity and use, most organisations have found the need to implement a corporate mail management system such as Microsoft® Office Outlook® to handle the messages and meeting invitations sent among employees.

The PD Training Microsoft Outlook 2016 Introduction training course is designed to provide you with the basic skills you need to start using Outlook 2016 to manage your email communications, contact information, calendar events, tasks, and notes. You can also use this course to prepare for the Microsoft Office Specialist (MOS) Certification exams for Microsoft Outlook 2016.
