COURSE LENGTH: 1.0 DAYS

The Supply Chain Management Training course by PD Training is designed to provide managers with the knowledge and skills to oversee the smooth and efficient flow of the finances, logistics, materials and services in the supply chain that will greatly help to maximize customer satisfaction and the company’s competitiveness.

By the end of this course, you will have a better understanding of: what supply chain management is and how it affects customer satisfaction, the finances and logistics involved in a well-managed supply chain, definition of terms (Procurement, Upstream and downstream, etc.), levels and stages of supply chain management, inventory management and much more.

This comprehensive training course is available across the U.S., including Atlanta, Austin, Baltimore, Birmingham, Boston, Charlotte, Chicago, Dallas, Houston, Jackson, Los Angeles, Manhattan, Miami, New York, Orlando, Philadelphia, San Antonio and Seattle.
SUPPLY CHAIN MANAGEMENT TRAINING COURSE OUTLINE

FOREWORD
Rapid global expansion, rising fuel costs, environmental concerns and interconnected businesses can all have a tremendous impact on corporate strategies and costs. Organizations can no longer ignore what happens outside their own four walls, making Supply Chain Management a critical and in demand field.

This course from PD Training helps to meet this demand. You’ll gain a better understanding of the finances, logistics, and delivery of products and services, and learn how it leads to increased efficiencies and competitiveness while maximizing customer value and satisfaction.
