PPA - Resilience and You

[REQUEST QUOTE](#)

[1.0 DAY COURSE](#)

This half-day activity-based workshop provides participants with the opportunity to understand resilience; the effects it has on their life and productivity then gives them the chance to learn practical tools and strategies to implement on a daily basis.

People learn tools from the leading sources such as the World Health Organization, Steven Covey (Circle of Influence) that they can use to proactively build their resilience and tools to employ in those tough times to maintain their reserves.

Delivered very much through a work lens, the workshop also includes neuroscience, and people learn to recognize their decision making, attitude and feeling about a situation as a result of chemical releases, and how to refresh and move forward more positively.

This is where science meets the workplace to build greater productivity.

This is a practical and fun day that is suitable for all audiences because of its practical workshop approach that provides people with tools that they can apply on-the-job (and in other contexts) the very next day.

What You'll Gain:

Performing Under Pressure – Creating resilient outcome-oriented teams in trying times

In collaboration with our clients, trainers, participants across the globe and our research & development partners (The OrgDev Institute and Leading Dimensions Consulting), PD Training has developed Productive People Advantage (PPA), designed for the needs of today to prepare your people and organization to have a sustainable advantage tomorrow.

PD Training's new signature series program - Productive People Advantage brings together the best activity-based learning, incorporates practical workplace tools, and leverages the latest research in neuroscience, psychometric profiling and emotional intelligence in new ways to develop and measure previously elusive to target or measure capabilities.

Outcomes

This course will provide practical skills and techniques to help people improve their workplace performance in the following areas:

- Managing Disruption and Change
